

A diagram showing a ladder leaning against a vertical wall on the left and a horizontal floor at the bottom. The wall is represented by a vertical line with diagonal hatching to its left. The floor is a horizontal line. The ladder is a single line segment. At the top of the ladder, where it meets the wall, there is an angle of 54° between the wall and the ladder. At the bottom of the ladder, where it meets the floor, there is an angle of 25° between the floor and the ladder.

[illegible]
